## PREFACE

The final population figures, of the State including Scheduled Castes and Scheduled Tribes population upto C. D. Block and Town Level, was released through Paper I of 1982. This paper—Paper 2 of 1982—Distribution of SC/ST population into different categories of workers is being brought out to meet urgent need of these data by the planners, scholars and other institutions. The basic data relating to the Scheduled Caste and Scheduled Tribe population presented here are the results of the 1981 Census. Thus the Primary Census Abstracts presented here contain information like number of households, total scheduled caste population (in the case of P. C. A. for Scheduled Caste), total scheduled tribe population (in the case of the P. C. A. for scheduled tribe), literates, main workers, cultivators, agricultural labourers, workers in household industry, other workers, marginal workers and non-workers by sex in respect of each area unit up to C. D. Block and town level. It may be noted that the special tables for Scheduled Castes and Scheduled Tribes are under process by the computer in the Direct Data Entry Station of the Office of the Registrar General, India and will be brought out when these are released by that office.

I owe a debt of gratitude to all technical staff in my office who by their sincerity and devotion to work could complete the compilation of these basic data on the target date. My special thanks are to those temporary staff on a fixed pay who had been with us for the editing and compiling the data from the schedules and who had displayed their sense of duty, sincerity and discipline without whom this and other works could not be completed as scheduled, I also owe my gratitude to Shri P. Padmanabha Registrar General, India and Census Commissioner of India and also to Shri K. K. Chakravorty, Deputy Registrar General, Shri C. Srivastava, Central Tabulation Officer and a host of other officials in the R. G's Office for their kind co-operation and guidance all through the Census.
